THE GALLANT BOYS FROM LOUISVILLE

**Col. Biscoe Hindman and Regiment Now
at Camp Yeiser.**

**Quickly Detained at 6 a. m. at Eleventh Street and
Marched to Car Sheds.**

SUNSET GUN WILL BE FIRED EACH AFTERNOON AFTER DRESS PARADE

Without accident or incident the First Kentucky regiment arrived this morning on a special train from Louisville at 6 o'clock, one hour behind scheduled time, and detained at Eleventh and Broadway. After forming a line the troops marched to the car sheds, where street cars were in waiting, and boarded them for "Camp Yeiser." Col. Biscoe Hindman, of Louisville, is in command. He got his soldiers off the train in a very few minutes. The First regiment is composed entirely of Louisville men. It used to be known as the "Louisville Legion."

An adjunct to the regiment is the Bardstown cadets, which has forty men, including officers and cadets. They wear the khaki just the same as the state guards, and are subject to call for duty if they are the required age. In the city they must be over 16 years of age and in the county over 18. Owing to a report in Bardstown that there was yellow fever in Paducah some of the company did not come. If it had not been for this report Capt. E. H. Crawford, commandant, says he would have brought a full company of fifty-four men. After being here a short time he learned how absolutely foundationless the report was.

Had Big Train.

The train bringing the First regiment was composed of three baggage cars, eleven coaches and a Pullman, the latter being occupied by the officers. One baggage car was used for Hotchkiss guns, of which there are four Gen. Percy Hall and Judge Advocate General Briggs came down from Frankfort, where they had been two days on business.

Breakfast Was Late.

Breakfast was served at 10 o'clock and there was an undressed guard mount following. Capt. H. E. Mechling, Co. C, is officer of the day; Lieutenant Kreiger, Co. E, senior officer of the guard and Lieutenant Winter, Co. H, junior officer of the guard.

Lieut. Beckham lectured to the officers on "Military Discipline Salutes and Company Records." The five non-commissioned officers gave instructions to the privates. The four non-commissioned officers from Ft. Wayne, Mich., are expected tonight. They have been delayed on account of not receiving transportation.

Col. Hindman a Distinguished Soldier.

Col. Hindman, commander of the First, is one of the most distinguished men in Louisville, besides being one of the most competent officers in the state military service. He is a graduate of West Point. At the end of the Spanish-American war Col. Hindman commenced the organization of the First regiment, as the old regiment was mustered out. He was elected colonel and Judge James P. Gregory lieutenant-colonel. Col. Hindman saw some active service in Tennessee while captain of a company and has had a great deal of experience in regular

army and militia matters. A majority of his subordinate officers have seen active service, which fits them for their positions. As state agent of the Mutual Life Insurance company, of New York, Col. Hindman has made a grand success, being one of Louisville's most wealthy men. He is state executive committee man from the Fifth Congressional district and park commissioner of the city of Louisville. He also figures prominently in Louisville politics. Not only is he a soldier, politician and business man, but a social and refined gentleman.

Louisville is to have one of the finest armories in the country through the efforts of Col. Hindman. By his influence he succeeded in getting the general council to appropriate \$450,000 for this institution, which, when completed, will stand as an everlasting monument to him and the Louisville regiment.

The First a Fine Regiment.

The First is one of the best regiments in the United States. Last year at the St. Louis World's Fair Col. Hindman's regiment was the only one invited by Gen. Fitzhugh Lee to take part with the regular army regiments, which was a very high compliment. It paraded and passed in review with regular soldiers and made just as good showing. The regiment is in splendid condition. There is harmony and good feeling. The men are husky, hardened and well drilled. Many of the men belong to the best families in Louisville.

Battery Is Here.

The battery is equipped and drills as an infantry. A portion of battery A, Frankfort, under Capt. Longmire, will man the guns. One shot will be fired in the morning for reveille and one in the evening for retreat. Twenty-one guns will be fired for the governor's salutes, and eleven guns for the adjutant general and other distinguished officers and personages. The ammunition for the Hotchkiss and Gatling guns is due and will probably be here tonight.

Is Acting Adjutant.

Owing to the absence of John J. Saunders, who was kept away by the recent death of his son, Captain Litsey, of the Second regiment, has been detailed acting adjutant for the First Lieut. Davis, company A, is touring Europe so First Lieut. Montgomery, Lexington, was appointed to fill the vacancy.

This One Is a Prominent Judge.

Lieut. Col. James P. Gregory is county judge of Jefferson county and one of Louisville's leading Democrats. It has been 22 years since his first enlistment as a private. As a private he served four years, was promoted to first lieutenant, then captain, and served as major the first month of the Spanish-American war but did not go to the Philippines with the regiment, later being advanced to the position he now holds. Lieut. Col. Gregory is a second cousin of Mr. O. L. Gregory, the

THE EAGLES.

Report Shows 50,000 New Members Added During the Year.

Denver, Col., Aug. 17.—The eighth annual meeting of the grand aerie of the Fraternal Order of Eagles is in session here. The ritual is to be wholly revised along Masonic lines, so as to place the order on a firmer basis, and greater restrictions will be placed on membership, although no occupations will be barred.

The report of President Pelletier shows a gain of over 50,000 in membership. The total membership now is more than 195,000 and the total number of aeries 1,032. President Pelletier gave the valuation of the assets of the subordinate aeries at \$1,700,000.

The report of Treasurer Head shows a balance of \$85,000 in the treasury of the grand aerie.

The contest for the presidency seems to have dwindled down to Pelletier's candidacy for renomination and Davis, of Ohio. Milwaukee appears to have a firm hold on the 1906 convention.

STRAIGHT TALK.

Came From Prominent Educator of Chicago.

Detroit, Aug. 17.—The speech of Mrs. Bodine, superintendent of compulsory education of Chicago, created a sensation among the delegates to the convention of factory inspectors and sociologists. The speaker produced federal statistics covering the past twenty years showing the industrial competition of women, children and machine labor was driving men out of the large cities to fields of heavy manual labor in mining and agriculture. She declared woman was destined to be the ruling sex in industrialism. Discussing society she declared that if conditions continue as they are today within a decade the question of neglected children of the rich will become as great a social problem as that of neglected children of the poor.

Regular Old-Fashioned Affair.

Madira, Calif., Aug. 17.—A stage coach from the Yosemite Valley for Raymond was held up yesterday afternoon and the passengers, all tourists, were robbed of money and jewelry. The robber was a young man wearing a black silk handkerchief for a mask and lay in wait behind a boulder lined the passengers up and robbed them.

Confesses to Train Wrecking.

Kokomo, Ind., Aug. 17.—Earl Porter, aged 18, was arrested last night charged with wrecking a Lake Erie and Western passenger train with fifty lives imperiled and several injured. Today Porter made a written confession admitting that he spiked the switch.

Perhaps more people would go to heaven if there were Sunday excursions.

ENVOYS DISAGREE OVER PROSPECTS

Some Predict Peace and Some Anticipate a Failure.

After the Discussion the Envoys May Adjourn for a Few Days.

THE CRISIS STILL DELAYED

Portsmouth, N. H., Aug. 17.—Mr. Korostovitch telephoned the following statement from the navy yards this afternoon: "At the morning session of the conference the plenipotentiaries discussed article nine. Not being able to reach a unanimous decision, the conference decided to record the divergence of views and proceeded to a discussion of the remaining articles."

Article nine is believed to relate to the war indemnity.

Loan Made in America.

London, Aug. 17.—A dispatch to the Exchange Telegraph from St. Petersburg says that a prominent banker there confirmed the report that the Russian loan was concluded in America. He stated that important supplementary dispatches were sent Count Witte yesterday and the feeling in regard to the outcome of peace negotiations is becoming more optimistic.

May Take a Recess.

Portsmouth, N. H., Aug. 17.—The general impression here is that Russia and Japan cannot get together on the question of indemnity and the session of Sakhalien. It is believed that after the discussion the envoys will adjourn several days to enable them to hear from their respective governments the final words on these points.

Believe Russia Will Recede.

London, Aug. 17.—Choso Kofke, secretary of the Japanese embassy, gave the following interview on the peace negotiations to your correspondent today: "There is a difference of opinion among the members of the embassy in regard to the peace negotiations. Several believe they will fall through. I consider a successful conclusion probable. Russia is decisively beaten and must make peace. Japan will not recede from her demands in regard to Sakhalien and for indemnity and I believe that when Russia recognizes this she will accept the inevitable."

Rumor Czar Will Soon Abdicate.

Berlin, Aug. 17.—A dispatch from St. Petersburg to the Tageblatt says that the czar is reported to be seriously ill.

It is rumored in government circles that he will abdicate soon in favor of his son. Until the latter's majority a regency will be instituted.

composed of three members of the imperial family, including the Grand Duke Constantine Constantinoitch.

Sato is Optimistic.

Portsmouth, Aug. 17.—Aimeru Sato, spokesman of the Japanese envoys, said today that good progress was being made in the peace negotiations and "I think there will be peace," he said "but that's merely my personal opinion."

Crisis Expected Monday.

Portsmouth, N. H., Aug. 17.—The prospects of peace are distinctly brighter. The plenipotentiaries are laboring with a seriousness and earnestness which leaves not the slightest doubt that both are anxious to conclude a treaty. When he returned to the hotel last night Mr. Witte, who was tired out with his hard day's work said:

"I am doing all I can do for peace. Of the eight articles we have already considered I have yielded seven. No other statesman in Russia would have dared to do so much, and I have done what I have done upon my own responsibility."

From an authoritative source it is now possible to forecast with a fair degree of accuracy that the crisis will come on next Monday. Articles 7 and 8, dealing with the fate of the Chinese Eastern railroad, having been disposed of yesterday there remains, in addition to the cession of Sakhalien, which was passed over, the question of indemnity, which comes up today, as article 9, the limitation of Russia's sea power in the Far East, the surrender of the interned warships and the grant to Japan of fishing rights on the littoral north of Vladivostok.

To all except the latter, to which Russia will agree, a negative answer has been returned, absolute in the case of indemnity and Sakhalien. Perhaps both the others may be modified and accepted by Mr. Witte in order to strengthen his position insisting upon a concession from Japan regarding its demands of an indemnity and Sakhalien.

Plague in Mississippi.

New Orleans, Aug. 17.—It is officially declared that there are nine cases of yellow fever at Mississippi City, Miss. It is stated there has been fever there right along and it was mistaken for malarial fever. The result of the announcement is that Mississippi is again tightened up with quarantine restrictions.

Is in Mild Form.

Jackson, Miss., Aug. 17.—Ripe yellow fever at Mississippi City is reported in a mild state. Health officers are confident they are able to stamp out the disease without further spread. The board of health is trying to trace the infection.

Today's Report.

New Orleans, Aug. 17.—Nineteen new cases and three deaths had been reported to noon.

Quarantines Against Coast.

Jackson, Miss., Aug. 17.—Jackson has quarantined against the entire Gulf coast. This ties up the Gulf and Ship Island road.

Yellow Fever Skeeter at Louisville.

Louisville, Aug. 17.—Health Officer Allen declares that he discovered the stegomyia mosquitoes along the river front and around the depot, Seventh and River streets.

No Change in Situation

New Orleans, Aug. 17.—With little variation in the daily record, it naturally follows that there is no material change in the situation and none is looked for in the immediate future. There is considerable satisfaction to be drawn from the small number of deaths, because it shows two things—one that the type of the disease is not as malignant as at first supposed, and the other, that the authorities are finding about every case in the city. The generally accepted death rate is about 11 per cent.

It is about a week ago that the daily record took such a jump, one day 105 cases being reported. Since then the daily record has hovered around 60. While eight days are usually allowed for a patient to recover or die, most of the deaths occur in the fifth and sixth days.

There were no prominent people among the new cases, but the majority of them are among people of comfortable circumstances. Only six of the new foci are above Canal street.

Past Assistant Surgeon Corput found another nest of infection outside of the city yesterday. He went to St. John Parish, fifty miles above the city on the Mississippi river, and unearthed thirty-three cases, twenty-one of which are entirely new focus in and around the town of La place. He found eight more cases on the Diamond plantation, in St. Charles parish, and four more on the Terre Haute plantation.

Mr. Charles Crow Appointed to Office of Coroner Until January 1st 1906

County Judge R. T. Lightfoot this morning appointed Mr. Charles Crow, coroner of McCracken county to fill the vacancy occasioned by the death of his father, Coroner James F. Crow. Mr. Crow had been acting coroner since his father became ill Monday.

The democratic county committee will have to meet some time before the November election and fill the vacancy on the ticket occasioned by the coroner's death. The later was the democratic nominee for coroner.

There were about two dozen applications this morning for the place of coroner until January 1st, but Judge Lightfoot did not hesitate in appointing the deceased officer's son to the place. Mr. Crow is an energetic young man and will make a good officer.

Coroner J. F. Crow was the third consecutive coroner to die in office. Mr. M. Nance, the undertaker, was for many years coroner, and was succeeded by the late George Phelps. Mr. Phelps died while serving and was succeeded by the late "Daddy" Peal. Coroner Peal died some months ago and Mr. Crow was then appointed to the position, and Coroner Crow was the third member to die within the past four or five years.

In addition, four magistrates who served occasionally as coroner during the illness or absence of the regular coroner, have died within the past few years, Justices Little, Winchester, Settle and Hook.

The late Mr. Charles Roth, the undertaker, was Democratic nominee for coroner at the time of his death.

Investment Company to be Organized by Representative Men of Paducah

Preliminary steps were taken at a meeting last night to organize an investment company for Paducah. The organization is to be incorporated under the name of The Columbia Investment company and the object of the corporation is to invest in Paducah real estate and securities.

There will be twelve stockholders and each stockholder will be a director. Officers have not been elected

but will be at a later date. The stockholders of the company will be Dr. J. Q. Taylor, L. M. Rieke Jr., Wallace Weil, C. W. Thompson, Douglass Bagby, Emmett Bagby, Harry Hank, Henry Diehl and others.

The capital stock will probably be \$5,000 at the start, and the company may not be incorporated before the latter part of this month, possibly not until the fifteenth of September.

SCOTT NOT FOUND

HIS WIFE NOW SATISFIED THAT HE LEFT OF HIS OWN ACCORD.

Says She Will Employ Detectives to Assist Her in Finding Him.

Mrs. Moscoe Scott, whose husband disappeared Monday night, has returned from Little Cypress and did not succeed in finding him.

Mrs. Scott says now that she is convinced her husband left of his own accord, and that she will at once take steps to locate him and will employ detectives to find out where he is and bring him back. Up to the time he disappeared he had been ill for several days and it was thought he had wandered away. The last time he was seen was on Island Creek bridge. Mrs. Scott thinks he took a train early after supper and probably went to Chicago.

IMPOLITE OFFICIALS.

Caused the Chinese Boycott, It Is Said.

San Francisco, Cal., Aug. 17.—J. W. Davidson, acting consul general at Shanghai, who arrived from the Orient today, says the cause of the Chinese boycott is discourteous treatment which sons of influential Chinese officials have received at the hands of the immigration officials on landing at San Francisco.

Davidson thought the fact that orders had already been placed for six months ahead for delivery of American goods would prevent the boycott being successful but he admitted that a popular anti-foreign feeling might be aroused which would carry the fight beyond control and result in serious consequences.

"The purposes of the boycott," he says, "has never been to secure the admission of Coolies, but to gain a proper treatment of the exempt classes."

BANKS CONSOLIDATE

Louisville Man Completes a Big Combine at Memphis.

Louisville, Aug. 17.—Attorney John Tevis is in Memphis, Tenn., where he has just completed a \$3,000,000 bank deal, by which two trust companies and three banks, one of them among the oldest and most stable in Memphis, are consolidated into a single institution. The deal was practically completed Saturday.

The Merchants' Trust company, capital stock of \$400,000, is the absorbing institution. The first stage of the deal was the absorption by the Merchants' Trust company of the American bank. The next step was the absorption of the Memphis National Bank and Trust company, with a capital stock of \$200,000. After the deal has been completed the Memphis National bank will surrender its charter and go out of existence.

The Memphis Savings bank, which occupies the same building with the Memphis National bank, will also be absorbed. This bank has a capital stock of \$200,000. The Trust company will continue under its present name, the Merchants' Trust company, and will occupy the building of the Memphis National bank.

Took Sixteen Innings.

Vincennes, Ind., Aug. 17.—In one of the prettiest baseball battles ever seen here the locals beat the Indians by a score of 2 to 1, the game lasting sixteen innings. There was sensational fielding by both teams. Paducah played an errorless game, which was remarkable considering the number innings and their crippled condition and the locals had only one error.

Brahic kept the hits well scattered as did Perdue. Fast fielding saved Brahic the game before the sixteenth.

Perdue got out of a bad hole in the ninth. The bases were full when Land sent a fierce liner toward third. Hippert made a brilliant catch of it, retiring the side.

The winning run was made on Cooper's single, Hippert's sacrifice and Barbour's Texas leaguer to right field.

Barbour got a sacrifice and five hits out of six times up.

Changes in Vincennes Team. Vincennes, Ind., Aug. 17.—Negotiations for the sale of Pitcher Duggan and Outfielder Cooper, of the Vincennes club, to Nashville, of the Southern league, have been called off. Duggan does not want to go to Nashville and Nashville will not pay the price asked for Cooper. Duggan wishes to go to Indianapolis, but it is said Cincinnati will either buy his release or else draft him. Salaries have been guaranteed all the local players up to Sept. 20, when the league season closes, and managers of higher league teams who expected to get the players without purchase or draft will be unable to do so. Up to the present time Manager Kolb has received word that ten or the twelve players will either be bought or drafted.

The Big League for Louisville. Louisville, Ky., Aug. 17.—Negotiations are pending by which Louisville may have big league ball next season.

Representatives of the American league and of the National league have been here to consult a quartet of Louisville men, and the chances seem to favor the placing of an American league or a National league team here for 1906.

It has leaked out that the big leagues have been figuring for some time on expanding to twelve clubs and that both have covetous eyes on Louisville. This city has a national reputation for enthusiastically supporting a good team.

One of the Louisville men approached has made several trips to Chicago since the matter was broached, and he thinks that there is a strong probability that Louisville will again have a club in the major baseball ranks.

PICKING BOOKS

INGENIOUS SYSTEM OF PRESIDENT E. W. BAGBY.

Lists Made Out by Several and the Choice Then Made—Book Committee Meets Soon.

President E. W. Bagby, of the Carnegie library board, is preparing to call a meeting of the book committee this week or the first part of next week, for the purpose of selecting a list of 1200 books to be ordered immediately.

President Bagby has adopted an ingenious scheme to secure the best and most popular books and thinks his plan the best possible to pursue. He has several board members on the committee and asked each committee member to prepare an individual list of the books he thought best to secure. The members are then called together and the list compared. The committee jointly selects from the individual lists and the list selected by the entire committee is submitted to the board.

Of the book committee, Mrs. L. M. Rieke and Mrs. A. R. Meyers, two of the most energetic members of the library board, have already submitted their lists and others will follow this week.

"The library is receiving a very liberal patronage and we are gratified that it should prove such a success," President Bagby declared, "and we will strive to have the best books possible to secure placed on the shelves. We have picked up a great many new ideas lately about the

CROP BULLETIN.

Seasonable temperatures and light showers have greatly helped corn, tobacco, pastures and gardens, according to the weekly crop bulletin. Continuing the bulletin says in part: Wheat—Threshing is completed in nearly all sections of the state, and the reports of yields and quality are practically the same as last week—some good, some poor.

Corn—The corn crop has been much improved by the rains and is in splendid condition. The early planted is practically secured, and present conditions generally are most promising for an unusually large crop.

Tobacco—Early planted tobacco has been mostly topped and secured, and the late is maturing. The crop generally has been helped by the recent rains, though there is considerable complaint from counties in the western and central portions of the state of too much rain. Reports of the crop vary considerably, and there is no doubt but that the lack of cultivation at the proper time has been quite detrimental. On the whole, however, the crop is doing very well and while worms are increasing, they have as yet done no damage. Some of the crop has been cut and housed.

Oats and rye have been good crops and yielded well. Potatoes, tomatoes and melons are plentiful and all garden truck is doing well. Beans will be a very large crop.

Hemp is being cut and the crop is very fair.

Chicago Excursion.

The excursion to Chicago will leave Paducah union depot promptly at 10 a. m., Tuesday, August 22 and will not make any other stop inside the city limits. The train will run via Cairo. The Illinois quarantine restrictions will not interfere with this excursion, but passengers are advised to procure health certificates before leaving the city. Fare for the round trip \$5.00, tickets good returning until August 30. Tickets good going only on the special excursion train.

MAYFIELD MARKET.

Tobacco Sold Well and Brought Good Prices.

Mayfield, Ky., Aug. 17.—The re-handler who had tobacco to sell this week had a smile all over his face and wished he had more to sell. The market was at least forty cents better on leaf than two weeks ago. No hogs were sold. The average price of 275 hogheads of leaf was \$6.98 8-11 per hundred while two weeks ago the average price on 255 hogheads was \$5.60 per hundred. One year ago 212 hogheads of leaf sold for \$4.26 1/2 per hundred. The association holds nearly 25,000 hogheads of first-class tobacco and of that amount Graves county farmers have over 2,000 hogheads.

GIGANTIC UNDERTAKING

Is the Health Inspection in Southern Illinois.

Cairo, Ill., Aug. 17.—The magnitude of the inspection system which has been built up to guard Illinois from an invasion of yellow fever will surprise most people. In a little more than a week's time a thorough organization has been perfected; more than 2,000 health certificates have been issued, and 1,000 passengers traveling through this gateway have been inspected. The inspection is carried on by a force of seven physicians under the direction of Assistant Secretary George Thomas Palmer of the Illinois state board of health. The refugees have been passing Cairo over one road alone at the rate of more than 1,000 per day.

Relief of Barbarism.

The viva voce system of voting was intended to be used as a club held over the head of the 'noid to prevent them from voting for the abolition of slavery. It is now proposed to restore the system in order to perpetuate a political slavery little less odious than that which held the blacks in bondage.—Owensboro Inquirer.

A HEALTH RESORT AT ECHO SPRINGS

Stock Company Being Formed to Take Over the Property.

Mr. G. W. Landrum, of Smithland, Has an Option and Is the Promoter.

DR. CALDWELL OWNS SPRINGS

If matters work out as it is thought they will, Echo Springs in Livingston county will be sold, a stock company formed, and the property converted into a health resort and advertised properly, beginning with next season.

Dr. S. B. Caldwell, of this city, is the owner of the entire property and has been attempting to sell it for sometime. This week he closed an option with Mr. G. W. Landrum, county clerk at Smithland, Livingston county, for 90 days and from indications the property will be bought in and converted into a health resort.

Mr. Landrum, it is understood, is organizing a stock company to buy the springs and if this is accomplished will put enough capital into it to make the necessary improvements and fit out a nice health resort. The waters of Echo Springs are said to be as good as those of Dawson and other springs in the state, and all it needs is developing.

Dr. Caldwell wanted to reserve a portion of the property for his own use but the option taker would not consent to this desiring the entire property.

JACKSON QUARANTINES

Against Fulton—The Latter Sends a Delegation.

Jackson, Tenn., has quarantined against Fulton, Ky., because of the charge that health certificates were being issued indiscriminately at the latter place. Fulton is trying to have the quarantine raised. The Jackson Whig says:

"Dr. H. Luten and A. Cohn, president and secretary, respectively of the Fulton board of health, arrived in the city Tuesday afternoon to consult with the local board of health in regard to the quarantine recently declared against the city of Fulton by this city and county."

"The visitors met with the board of health Tuesday afternoon, and presented the cause of their city most vigorously. The local authorities decided, however, that it would be best to go slow in the matter and deliberate and investigate further. The quarantine may be raised in a few days, however."

STRANGE PROCEEDINGS.

Grand Jury at Murray Asks to Have Case Resubmitted.

Murray, Ky., Aug. 17.—Last week an indictment returned against E. H. Purdom by the grand jury for willful murder for the killing of Buford Jones.

Friday this indictment was dismissed and the prosecution resubmitted to the grand jury. An indictment was then returned against him for involuntary manslaughter and the prosecution continued until November. It was a very unusual profligate murder had been drawn and returned the grand jury prepared a written statement and request signed by the entire jury stating that they never indicted for willful murder, but for involuntary manslaughter, or unintentional killing and asked that said indictment be resubmitted to them for correction, the sequel to which petition was as above set out.

Called to Nashville.

The Edgefield Baptist church at Nashville has unanimously agreed to call Dr. A. C. Cree, professor of the Southern Seminary at Louisville, to the pastorate of the church. Dr. Cree was notified of the action taken by the congregation, and replied that he appreciated the call very much, but that a definite answer could not be given until a week or more had passed.

This Nashville pulpit is the one Rev. Lloyd Wilson, formerly of Paducah, resigned to go to Louisville.

DELEGATES SENT TO TOLEDO MEETING

Board of Works Names Messrs Fowler and Kirkland.

Sanitary Work Ordered to Proceed—Bids for Oiling the Streets Are Asked For.

BRIDGES BOND WAS ACCEPTED

The regular meeting of the board of public works was held yesterday afternoon and the bond of Contractors Thomas Bridges Sons was ratified and the company may now proceed with the storm water sewers from Fifth to the river on Jefferson and from Fourth to the river on Kentucky avenue. The remainder of the storm water sewers have been sublet by the Southern Bitulithic company to Robertson & Gardner, but it is understood they will not begin until the Bridges company has finished its part.

Sanitary work was reported progressing as well as possible and Street Inspector Alonzo Elliott was instructed to keep it up.

The board of public works again demonstrated its progressiveness by appointing two representatives to attend the League of American Municipalities which meets in Toledo, O., on the 23, 24 and 25 of this month.

The board named Auditor Alex Kirkland and Mr. Saunders A. Fowler, the latter secretary of the board, as local delegates and all expenses will be paid by the city. This is the same league which was attended three times by Hon. James M. Lang, who was then mayor of the city of Paducah.

During these league meetings, all moves appertaining to the advancement of cities are discussed. In this way cities are greatly benefited by the experience of others, and the two local representatives who are men of good ideas and who will keep their eyes and ears open for the welfare of the city, are expected to return with new ideas for the advancement of the city.

The board yesterday ordered Market Master Frank Smedley to proceed at once to warrant and prosecute all violators of the sanitary laws governing the throwing of refuse matter on the street at the market house.

A great deal of complaint has been received from the residents and property owners along that street of hucksters throwing refuse matter in the streets and instead of making the hucksters pick it up the market master will hereafter warrant them.

The board also instructed Engineer Washington to report if Mr. Herzog would give enough property to make a 50 foot street leading to the McKinley school in Mechanicsburg. This is all that keeps the board from recommending the street.

Engineer Washington was further secure at once in writing what the street car company intends to do in regard to standing expenses on putting in a concrete fill on Caldwell avenue on the last fill going out. The car people have never specified exactly what the company will stand towards this expense and the old bridge is now in a dangerous condition and something should be done at once.

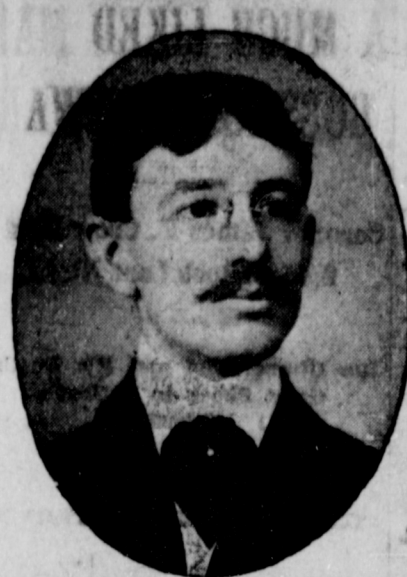

The matter of bad sewerage connections at several places in the business portion of the city was referred to the sewer inspector.

The board wrote to the Home Co., of Lexington, asking for bids on sprinkling the streets here with oil.

The board ordered a letter written to the I. C. asking that ten car loads of gravel be sent here to repair and keep in good order the tracks on First and Second street, also that the road repair and keep in good condition all railroad crossings within the city limits.

BIG TEST TRAIN

STARTED FOR LOUISVILLE TO TEST MONSTER ENGINES.

If Test Is Satisfactory 25 Big Engines Will Be Assigned This Division.

This morning a test train was run out of Paducah to Louisville for the purpose of testing the capacity of the big 800 class engine recently sent here for trial on the Louisville division.

The engine is No. 812 and was sent here from the St. Louis division. A train twice the length of the ordinary freight, was sent out with a tonnage of about 1200 tons, to Louisville, with the big engine pulling it. The engine is in charge of Engineer John Cairnes and Fireman Arthur Aday and they expect to make record breaking time with the big machine which has just come out of the round house after being put in the best possible shape for the test.

If the engine fulfills requirements and comes up to the claims of the manufacturers, 25 will be assigned to this division. The tunnels were cut out last winter and are large enough to permit the passage of the big machine.

Supt. A. H. Egan came here last night to go out on the run and his private car was in the train. He was accompanied by Master Mechanic Turnbull and other Paducah and Louisville division officials.

The officials after the train started annulled the orders to Louisville, and will go no further than Princeton with the train. The exact tonnage is 1,300 and the big engine jerked the train over the rails with ease at the start.

It is understood that the entire grade will be changed if the result of the run is not satisfactory. The grade between here and Princeton is cut by hills and the move, if made, will mean the expenditure of many thousand dollars in cutting it down.

RASCALS ABROAD.

People Should Beware of Swindlers, Say the Police.

There are various swindlers abroad according to information received by the police, but the newest is a man who represents himself as a city official and attempts to collect dog tax, and in an instance or two has attempted to make builders of houses pay a dollar for a building permit before proceeding farther on a house.

The dog tax swindle seems to be the easiest. The tax is \$3 on male and \$5 on female dogs, with a penalty of 10 per cent. The man carries receipts already filled out and offers to deduct the 10 per cent penalty if the tax is paid. So far as known the impostor has not succeeded in fleecing anyone.

Louisville Couple Marry Here.

Miss Anna Parsons, of Parkland, and John Curd, a well known young lumber dealer of the West End, left for Paducah last night, where they will be married this evening at the home of his mother. Upon their return they will live at 2436 Hemlock street.—Louisville Herald.

Daily Thought.

To be weak is to be wretched.

PEACE IS DOUBTFUL.

Despite the evasive and reassuring declarations of the peace envoys themselves, the conviction seems to grow among the newspaper correspondents assembled at Portsmouth that the war will not end just yet.

The situation in a nutshell seems to be that Japan, flushed with victory, will yield nothing. Russia, strong but impotent, will concede everything to a certain point, and then steadfastly insist on her own desires as to the rest.

A special correspondent of the St. Louis Globe Democrat says:

The real contest at Portsmouth is narrowing to the indemnity condition imposed as a basis of peace with Russia. When that point is reached Russia is expected to stand firm, turning with apparent resignation and virtuous mien to the powers of the world. To them she will say, in effect:

"All these things have I given to my adversary. To her dominions I have added a kingdom. I have assented to an extension of her sphere of influence which makes her the dominant nation of the Far East. Now protect poor me from the rapacity of my enemy."

Samuel G. Blythe, special correspondent of the New York World, says:

"The prospects of peace between Russia and Japan went glimmering when the conferees today took a 'note of divergence' on the fifth Japanese condition. Mr. Witte, the Russian envoy, has given up the fight. He will talk with Japan for a day more, or maybe two or three days, but he has made up his mind that there can be no peace and he has sent this word to the czar:

"The Japanese are stolid, uncommunicative, inscrutable. They persistently demand their pound of flesh. They claim the right of might. They don't intend to be deprived of the fruit of their victories. The peace that looked so possible early in the week is now not even probable. More blood must be shed. The pride of Russia demands further sacrifice from her sons. Witte has decreed that he will give Japan only what Japan has now.

"The war will go on. The peace conference at Portsmouth might as well have never been called."

A great deal of rubbish is going the rounds about the Chinese boycott. This country has seen fit, for the protection of its laboring classes, to exclude the Chinese. Naturally the Chinese—or any other people—would not break their necks to get to spend their money in a country they are

not allowed to enter. If the slant-eyed Celestials take a common-sense view of the situation, they cannot blame the United States for keeping them from competing with our workmen, and if we take a common-sense view of it we cannot blame them much for displaying a characteristic trait of human nature by refusing to send their money where they are not allowed to go themselves. Both sides must apparently accept the inevitable and grin and bear it.

A man up in Louisville has the courage to combat modern medical research and theories. He says he cares nothing about the mosquito, and doesn't believe it has anything to do with the cause of yellow fever, because in 1878 he and other boys broke open an old trunk that the L. and N. had dumped into an open lot because it had belonged to a yellow fever patient, and nearly everyone of them took the disease. He says there are too many people in Louisville who remember that old trunk episode and the number of persons who caught yellow fever from its being opened, to make the mosquito theory to the extent it is being exploited very popular.

The effort of the board of works to clean up the city should meet with a more prompt and extensive response than it has. People who do not have old cans handy to use as receptacles for rubbish and garbage should buy them—and use them. Out of the hundreds of stores and residences in the downtown district only a few cans have appeared. We cannot have a clean city unless the people co-operate. An ounce of prevention is worth a pound of cure. Epidemics seem to be numerous this year and no city is safe except a clean city.

It is no doubt to the interest of certain designing politicians to have the secret ballot abolished, so if a man does not vote to suit them they may know who he is and punish him, but it would be contrary to the interests of thousands of voters in Kentucky who desire to vote in accordance with their consciences without subjecting themselves to political persecution and possible pecuniary loss. The voters should bear this in mind when they cast their ballots in November.

Fulton quarantined recently and when the state board of health announced that the quarantine was raised, the council met and quarantined again by means of an ordinance. Then when numerous functionaries began doing a land office business in health certificates and Jackson, Tenn., quarantined against Fulton, a howl was raised and a delegation was sent down to protest. Consistency is hard to find during fever scares.

Mr. Watterson has blasted the hopes of a good many politicians who have been laying around a long time with knives up their sleeves for him. He should have run for governor and given them their chance.

It would be a good joke on Paducah if the good old honest farmers of the country should vote to keep up their stock, when Paducah cannot have the cows kept off the streets.

A MUCH LIKED MAN GOES TO HIS REWARD

Coroner James F. Crow Died at 9:45 O'clock Last Night.

His Illness Brief and His Death a Great Shock to a Host of Friends.

FUNERAL THIS AFTERNOON

Coroner James F. Crow, after rallying to such an extent yesterday afternoon that hope of recovery was revived, suddenly took a turn for the worse last night and died at 9:45 at his home, 319 Jackson street. Mr. Crow's death has proven one of the greatest shocks the community has had for some time. A few days ago apparently in good health he was attending to his duties and greeting his friends with his usual affability. His seizure and death were very sudden and have brought sorrow to many people.

Coroner Crow was born 55 years ago near Raleigh, N. C., and was son of Mr. Ezra Crow, who was afterwards among the most prominent pioneers of Marshall county. Early in life the family moved to Benton, Ky., and there Mr. Crow grew to manhood. He was proprietor of a hotel and merchandise store there for many years, and in 1885 came to Paducah, where he had since resided.

Mr. Crow's career in Paducah had been a busy, honorable one. He was Paducah's last city marshal. He was elected by a big vote and filled the office with credit.

At the death of Former Coroner, Peal, Judge Lightfoot appointed Mr. Crow, and Mr. Crow easily won the democratic nomination for the same office at the primary several months ago.

Some of Mr. Crow's friends say that he has never been in his usual good health since while acting as special officer on a steamboat excursion over a year ago, he was assaulted by two or three negroes and badly hurt.

Politically Mr. Crow was a democrat, but was considerate and willing at all times to concede to others the right to their political opinions, which made him popular with men of all parties.

He married a daughter of the late Major George Barnes in the '70s, and she, with three of their four children, survive. The children are Messrs. William and Charles Crow, and Miss Ella Crow. Mr. William Crow now resides in Ballard county. The deceased also leaves a brother, Mr. D. Crow, and a sister, Mrs. Ernest Moore, of Benton.

The deceased was a prominent member of the First Baptist church, and was in the choir, and was also a member of the A. O. U. W. and the Red Men. He always took a great interest in the old southern harmony singings, and was frequently the leader in them.

Personally Mr. Crow was a kind-hearted, generous, high-minded man. He was unostentatious in his charity but did a great deal of good. He has often been known to give money that he needed himself to those who needed it worse, and the cry of affliction, when it reached his ear never failed to elicit a response when a response was possible. He was a very quiet unassuming man, loyal to his friends and magnanimous to the few who were not.

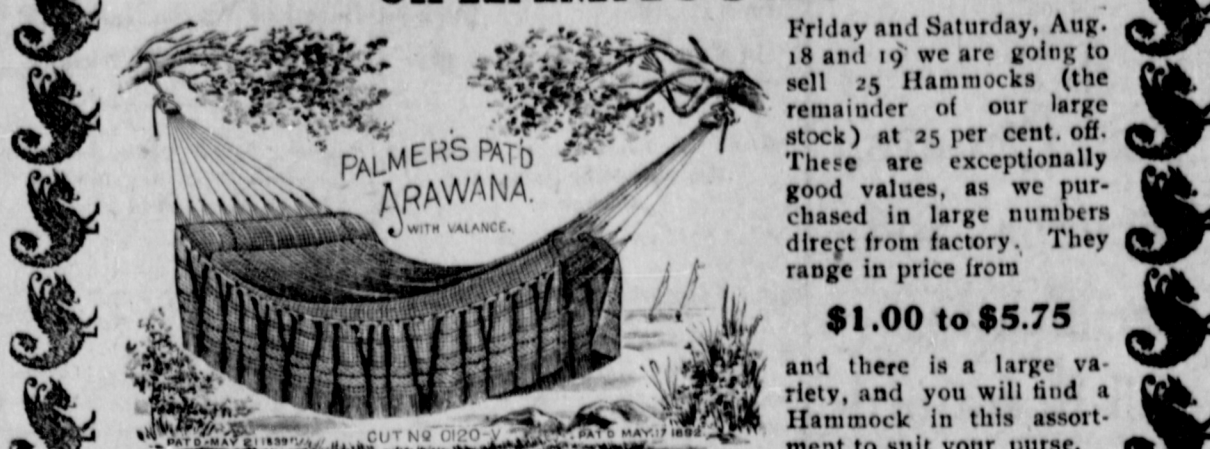

His funeral took place this afternoon at 4 o'clock from the residence of Rev. J. S. Cheek, of the First Baptist church, officiating. The interment was at Oak Grove under the auspices of the A. O. U. W. and Red Men. The pall-bearers were: Messrs. L. L. Bebout, Henry Bailey, Geo. O. McBroom, W. M. Mooney, Joseph Ullman and David Cross.

Chief of Police James Collins this morning issued orders that one policeman from each beat could get off this afternoon to attend the funeral of Coroner James Crow. The chief sent a large and elaborate floral design for the grave of the deceased coroner, as a token of the respect and reverence to the dead ex-chief of the police.

New Firm Enters Business.

Messrs. Jack Fisher and Frank Sinks have formed a partnership and started an electrical supply business at 223 Jefferson street. They will do all sorts of house and steamboat wiring and are also agents for the Willey motors. Mr. Fisher is a son of the late J. Will Fisher and Mr. Sinks is from Golconda. Both are energetic young men who will no doubt be successful.

LIVELY TIME

Experienced in Capturing An Escaped Prisoner.

Officer Aaron Hurley had an exciting time catching Harry Miller, colored, who escaped from the chain gang yesterday while at work on the streets.

Miller was fined \$25 and costs and given ten days in jail for carrying a concealed weapon. He served his jail sentence and yesterday was sent to the city jail to begin his term there.

The chain gang boss took him out with the other prisoners but failed to shackle him, thinking Miller did not intend to make his escape. The prisoner, however, took the chance and ran. The police got a trace of him on the South Side and started to catch him.

Officers Churchill and Hurley got on his trail and located him in a house near 11th and Caldwell streets. Officer Churchill remained on the outside while Officer Hurley went in after the fugitive.

Miller, seeing the officer, made a dash for the window. He leaped through the sash but Officer Hurley got hold of his clothes as he got through. He pulled the officer on through and the two scrambled about in the yard for sometime before the officer finally managed to overpower him.

Officer Churchill, hearing the difficulty, ran to the assistance of his fellow officer, and assisted in capturing the desperate fugitive.

Miller got a double city jail sentence for his escape this morning. Officer Hurley is suffering a few pretty bad bruises but is not off duty.

LAST STEP

Towards the Management of Riverside Hospital.

Mayor D. A. Yeiser, Auditor Alex Kirkland and City Physician Johnston Bass visited Riverside hospital this morning and decided the question whether or not the hospital matron and other attaches of the institution be paid monthly or semi-monthly.

The attaches insisted on being paid as policemen and other employees of the city which was agreed to. The records and other papers of the hospital department were filed in Riverside hospital and each month the matron and other employees will make out a report to be furnished to the legislative boards the same as is furnished by the chief of police, fire department, electrical inspector and other city officers.

This is the last step towards perfecting the management of the hospital and it will now run along as smoothly as is possible for a hospital to run, it is thought.

While near the brick kiln, the chief noticed someone coming and thinking he was perhaps the negro he was looking for got out of the buggy and went over to see who it was.

He called to him to halt, at the same time pulling his pistol and shooting.

No sooner was this done than the man stopped, drew his pistol and fired back at the chief, who returned the fire. The man broke and ran in a southeasterly direction and escaped.

ONLY FOUR MONTHS

For Willie Jones, Colored, Charged With Vagrancy.

Willie Jones, whose color will out-rival coal tar, was arraigned before County Judge R. T. Lightfoot this morning on the charge of vagrancy.

"Have you been employed at all during the past several weeks?" Judge Lightfoot asked the defendant.

"Well, I've been at work on a wagon off and on, going to work Monday," the defendant replied as he shuffled his great feet about in a very agitated manner.

Willie explained that he went to work Monday on an express wagon and maybe he made more than \$3 a month and maybe he did not, but at

any rate he was "at work." Judge Lightfoot probed into the case more thoroughly and learned that Jones went to work Monday and laid off that day in order to attend court the next day. Judge Lightfoot thought that Jones would be benefited by a term in county jail where he would learn to work, and sentenced him to four months in the county jail.

Annie Churchill, colored, who stole a dress from a woman while under the influence of liquor, was given two months in county jail by Judge Lightfoot this morning. She was held over from police court this morning on the charge of petty larceny.

POLICE COURT

ROBBERY CASE AGAINST YOUNG
MAN DISMISSED.A Number of Minor Offenses Adjudi-
cated by Judge Cross.

Jim Doolin and Reed McCormick
two white boys, were dismissed of
the charge of robbery this morning
in police court.

The case is a very strange one and
in which no positive evidence could
be secured, it is claimed. Doolin is
alleged to have stopped a Mayfield
man named Hayden on North Second
street and compelled him to give
him \$5. Hayden identified him but
seemed to be under the influence of
liquor or suffering from delirium
tremens. A medical examination was
made of the man yesterday.

County Attorney Graves alleged
that an attempt was made to get
Hayden too drunk to testify and also
of giving him \$10 for the \$5 he
lost, but Judge Cross, owing to the
conflicting testimony, dismissed the
case.

Other cases were: Maynard and
Joe Allen, white, breach of the peace,
\$3 and costs each; Annie Churchill,
colored, petty larceny, held to an-
swer; Harry Miller, colored, escap-
ed from the chain gang, sentence of
25 days doubled, making 54 days to
serve in city prison.

WILL OF CHAPELLE.

Bulk of Churchman's Property Goes
to Church Dignitaries in the
South.

New Orleans, La., Aug. 17.—The
will of Archbishop Chapelle was pro-
bated. The bequests were as fol-
lows:

"All of the property, real and per-
sonal, I may possess at the time of
my death, situated in the state of
Louisiana, I will and bequeath to
the Rt. Rev. Edward Fitzgerald,
bishop of Little Rock, Ark.; Rt. Rev.
Edward P. Allen, bishop of Mobile,
and to Very Rev. J. M. Lavall, my
vicar-general.

"My property, real and personal,
situated in the territory of New
Mexico I will and bequeath to the
Very Rev. Anthony Fourchigu, ad-
ministrator of the archdiocese of
Santa Fe, during the vacancy of
that see.

"All my real and personal prop-
erty situated in the department of
Lozere, France, I will and bequeath
to my niece, Josephine Solignac."

Circuit Court Notes.

The following suits were filed in
circuit court this morning:

H. C. Allison's executrix against
Robert and R. H. Hughes for an al-
leged note for \$100 with the enforce-
ment of a lien.

H. C. Allison's executrix against
J. B. Watson for an alleged note for
\$100.

The case of Louise Countee
against J. W. Troutman was ap-
pealed to circuit court today. The
plaintiff seeks to set aside the ap-
pointment of Troutman as adminis-
trator of James Squires, her hus-
band, and to have the court appoint
her and Frank Lucas administrators.

Police to Co-operate.

This afternoon it was arranged
with the police department that all
soldiers caught in any disorderly
conduct on the streets of Paducah by
any police or other officers of the
law, be turned over to the squad and
sent to Camp Yeiser for confinement
in the guard house. The police were
notified that all soldiers with bayo-
nets on their guns were considered
on duty and that those who did not
have them on their guns were off
duty. This is to distinguish those on
and off duty. The local police ex-
perienced no trouble practically with
the members of the preceding reg-
iment and expect the present reg-
iment to act just as orderly.

Baseball Tomorrow.

The Metropolis Blues and the
Anna, Ill., teams of baseball will
play a game tomorrow afternoon at
League park, the game starting at
3 o'clock. These teams are the
fastest amateur baseball teams in
Southern Illinois and great rivals.
They have recently played two
games and each team won a game.
They come to Paducah to play the
deciding game. A big excursion will
come from Metropolis to see the
game. Admission will be 25 cents.

KENTUCKY NEWSLETS

To Have Sheepskin on Skull.
Louisville, Ky., Aug. 17.—Miss Edna Pitts who was scalped by a factory belt August 3, is to be the subject of a unique and interesting experiment in surgery. Dr. A. R. Bizot will attempt to graft upon her skinless skull and neck part of the skin of a brown sheep. The sheep has been most carefully selected and is being dined in preparation for us to which its epidermis is to be put. The choice of a sheep's skin rather than human skin is prompted by the large area to be covered and the fact that the use of human skin involves the risk of impairing certain cutaneous diseases. Dr. Bizot realizes that the operation is in the nature of an experiment but believes it will be successful. If so it will mark a new area in dermatology and add another triumph to the many already credited to Louisville physicians.

His Check Refused.
Owingsville, Ky., Aug. 17.—An innocent mistake has involved Harry S. Bittinger, postmaster at Stephentown in serious trouble with the government. He has been arrested on a charge of misusing postoffice money, preferred by an inspector. Bittinger has been using the postoffice money in his business. When time for settlement came he would draw the proper amount from bank and send it to Washington. An inspector appeared last week and demanded the government's money. When Bittinger proffered his check it was refused. He was released on bond.

Goes After Luster.
Guthrie, Ky., Aug. 17.—City Marshal Robert Burrows left here for Ogden, Utah, to bring back Percy J. Luster, who is wanted here for wife murder. Requisition papers for Luster were issued Monday by Gov. Beckham, and Luster will be brought back to the scene of his crime.

Lost Second Wife.
Maysville, Ky., Aug. 17.—Mrs. A. J. Whanger, aged 19 years, died at her home here. She is the second wife Mr. Whanger has lost this year, the first having been killed in the railroad yards.

Nominated for Councilmen.
Hopkinsville, Ky., Aug. 17.—A primary election was held in the First and Sixth wards to select democratic candidates for council. In the former J. Miller Clark defeated H. W. Tibbs by one vote. Dr. J. R. Jackson, the present incumbent, was nominated in the Sixth ward, defeating E. M. Plack by eighteen votes.

Victim of Peculiar Accident.
Central City, Ky., Aug. 17.—Massey Mallam, a young man residing at Bevier, was seriously injured in endeavoring to stop a coal car in the mines of the Crescent Coal company. He placed a stick on the rail, but when the car struck it the stick was whirled with great force into his face, tearing a large gash and necessitating the taking of a number of stitches to close the wound. If no complications set up the young man will recover.

To Put On a New Head.
Hopkinsville, Ky., Aug. 17.—The Clay Monument Association of Kentucky has begun a movement to replace the head of the monument to the immortal Henry Clay at Lexington. Subscriptions are to be taken all over the state for the purpose. The head of the Clay monument was broken off during a severe cyclone three years ago and has never been replaced.

MR. LUCAS BACK.
And Representative of State Inspector Also Appears.

Revenue Agent Frank A. Lucas appeared at the county clerk's office this morning for his third visit to this city, but at the same time there appeared another gentleman in the person of George R. Gorin, who is here for the purpose of checking up the proceedings of Mr. Lucas, under the general investigation which is being conducted under State Inspector Henry B. Hines, says yesterday's Hopkinsville New Era.

Mr. Gorin has been very busy all day in going over the suits filed and the settlements made by Mr. Lucas. He is making a careful and thorough search into all the cases and is taking notes freely. He has not found any discrepancies in Mr. Lucas' work here.

A knot is a nautical mile and a nautical mile is equal to the length of one minute of latitude on the meridian, or one minute of longitude on the equator. The United States Coast Survey has adopted the rule of considering one nautical mile as being 6080.27-100 feet, or 800 feet longer than a land mile.

The origin of the words "starboard" and "larboard" as used in the nautical vocabulary, has been attributed to the Italian words "questa borda," meaning "this side," and "quella borda," meaning "that side." Abbreviated these two phrases appear as sta borda and la borda, and by corruption of languages were soon rendered "starboard" and "larboard" by British sailors. These words sound so much alike that frequent errors and accidents occurred, and years ago, therefore, the use of "larboard" was discontinued and "port" was substituted. It is also stated that the origin of the terms has been attributed to the days of the Norsemen and Saxons. In the viking ships and warriors hung the "bords," or shields, on the side of the ship above the places for their oars. The viking himself held the steering oar, which was fastened to the right hand side of the stern. Thus the right hand side of the ship became known as the star side, and as the bords of the warriors were hung there it was called the "steerboard," or starboard side, while the lower or lurking side became known as the larboard. Boid eventually became corrupted into port.

Over one hundred and ten years ago the first steamboat plowed the American waters. On May 1, 1788, Fitch's steamboat, the Perseverance, was put in motion on the Delaware river. It barely made three miles an hour. The Perseverance was a queer looking craft, too, than was ever seen along the banks of the Mississippi. It had a 1x3 foot steam cylinder lying horizontally in the bottom of the boat with a reciprocating piston whose force was transferred to cranks on each side of the boat.

The nice increase in our business since the first of the year is very encouraging to us.
PADUCAH BANKING CO.

Connecting bars attached these cranks to 12 paddles, of which three on each side of the boat were in and three out of the water at the same time. The engine was the first double action condensing engine, transmitting power by means of cranks, ever constructed; and the Perseverance antedated Fulton's Clermont by 20 years and made the steamboat an invention of the last rather than of the present century.—Waterways Journal.

BLOCK SYSTEM

Is Being Installed on the Louisville District Now.

Linemen are at work on the block system on the Louisville district of the I. C. and expect to finish their part of the work within the next month.

The block houses are not yet ready but can be built and be ready to be erected within a few weeks after the line work is complete. The material for the entire system is on hand and the work of installing the system is progressing nicely.

When finished it will mean a complete block system from Louisville to Fulton where the double tracks begin.

SEPTEMBER 15TH

Work Will Probably Be Started on the Elks' Building.

The Elks' building committee held a meeting last night, looked over the plans of Architect O. D. Schmidt and accepted them. It was decided to advertise in Paducah, St. Louis and Louisville papers for bids and the bids must be in by 10 a. m. September 15th, and work is to start September 15th. The building is to be three stories high, on North Fifth street opposite the Kentucky theater, and is to cost about \$30,000.

NOTICE.

The Eaton Lumber Co., vs. Steamer Charleston.

Whereas two libels were filed in the District Court of the United States for the Western District of Kentucky at Paducah on the 1st and 5th days of August, 1905, respectively by the Eaton Lumber company, against the steamer Charleston, alleging in substance that the said steamer is indebted to said company in the sum of \$— and that said libellant part owner of said steamer, and prays for a sale of said steamer in a cause of libelation or partition civil and maritime and for process against said steamer and against all persons having an interest therein and especially against J. B. Smith, part owner of said vessel, and that same may be condemned and sold and the proceeds of sale be brought into court to be divided and distributed according to law.

Now, therefore, in pursuance to the motion under seal of said court, to me directed, I do hereby give public notice to all persons claiming the said steamer or in any way interested therein to appear before said United States district court in the city of Paducah, Ky. on or before the 4th day of September, 1905 at 10 o'clock in the forenoon of that day then and there to interpose their claims and to make their allegations in that behalf.

The Return of SHERLOCK HOLMES

By A. CONAN DOYLE

WHEN I look at the three massive manuscript volumes which contain our work for the year 1894, I confess that it is very difficult for me out of such a wealth of material to select the cases which are most interesting in themselves and at the same time most conducive to a display of those peculiar powers for which my friend was famous. As I turn over the pages I see my notes upon the repulsive story of the red leech and the terrible death of Croxley, the banker. Here also I find an account of the Addleton tragedy and the singular contents of the ancient British barrow. The famous Smith-Mortimer succession case comes also within this period, and so do the tracking and arrest of Huret, the boulevard assassin, an exploit which won for Holmes an autograph letter of thanks from the French president and the order of the Legion of Honor. Each of these would furnish a narrative, but on the whole I am of opinion that none of them unites so many singular points of interest as the episode of Yoxley Old Place, which includes not only the lamentable death of young Willoughby Smith, but also those subsequent developments which threw so curious a light upon the causes of the crime.

It was a wild, tempestuous night, toward the close of November. Holmes and I sat together in silence all the evening, he engaged with a powerful lens deciphering the remains of the original inscription upon a palimpsest. I deep in a recent treatise upon surgery. Outside the wind howled down Baker street, while the rain beat fiercely against the windows. It was strange there, in the very depths of the town, with ten miles of man's handiwork on every side of us, to feel the iron grip of Nature and to be conscious that to the huge elemental forces all London was no more than the molehills that dot the fields. I walked to the window and looked out on the deserted street. The occasional lamps gleamed on the expanse of muddy road and shivering pavement. A single cab was splashing its way from the Oxford street end.

"Well, Watson, it's as well we have not to turn out tonight," said Holmes, laying aside his lens and rolling up the palimpsest. "I've done enough for one sitting. It is trying work for the eyes. So far as I can make out it is nothing more exciting than an abbe's accounts dating from the second half of the fifteenth century. Hello, hello, hello! What's this?"

Amid the droning of the wind there had come the stamping of a horse's hoofs and the long grind of a wheel as it rasped against the curb. The cab which I had seen had pulled up at our door.

"What can he want?" I ejaculated as a man stepped out of it.

"Want? He wants us. And we, my poor Watson, want overcoats and cravats and galoches and every odd that man ever invented to fight the weather. Wait a bit though! There's the cab off again! There's hope yet. He'd have kept it if he had wanted us to come. Run down, my dear fellow, and open the door, for all virtuous folk have been long in bed."

When the light of the hall lamp fell upon our midnight visitor I had no difficulty in recognizing him. It was young Stanley Hopkins, a promising detective, in whose career Holmes had several times shown a very practical interest.

"Is he in?" he asked eagerly.

"Come up, my dear sir," said Holmes, voice from above. "I hope you have no designs upon us such a night as this."

The detective mounted the stairs, and our lamp gleamed upon his shining waterproof. I helped him out of it, while Holmes knocked a blaze out of the logs in the grate.

"Now, my dear Hopkins, draw up and warm your toes," said he. "Here's a cigar, and the doctor has a prescription containing hot water and a lemon which is good medicine on a night like this. It must be something important which has brought you out in such a gale."

"It is indeed, Mr. Holmes. I've had a bustling afternoon, I promise you. Did you see anything of the Yoxley case in the latest editions?"

"I've seen nothing later than the fifteenth century today."

"Well, it was only a paragraph and all wrong at that, so you have not missed anything. I haven't let the grass grow under my feet. It's down in Kent, seven miles from Chatham and three from the railway line. I was wired for at 3:15, reached Yoxley Old Place at 5, conducted my investigation, was back at Charing Cross by the last train, and

straight to you by cab."

"Which means, I suppose, that you are not quite clear about your case?" "It means that I can make neither head nor tail of it. So far as I can see, it is just as tangled a business as ever I handled, and yet at first it seemed so simple that one couldn't go wrong. There's no motive, Mr. Holmes. That's what bothers me. I can't put my hand on a motive. Here's a man dead—there's no denying that—but, so far as I can see, no reason on earth why any one should wish him harm."

Holmes lit his cigar and leaned back in his chair.

"Let us hear about it," said he.

"I've got my facts pretty clear," said Stanley Hopkins. "All I want now is to know what they all mean. The story, so far as I can make it out, is like this: Some years ago this country house, Yoxley Old Place, was taken by an elderly man, who gave the name of Professor Coram. He was an invalid, keeping his bed half the time and the other half hobbling round the house with a stick or being pushed about the grounds by the gardener in a bath chair. He was well liked by the few neighbors who called upon him, and he has the reputation down there of being a very learned man. His household used to consist of an elderly housekeeper, Mrs. Marker, and

of a maid, Susan Tarlton. These have both been with him since his arrival, and they seem to be women of excellent character. The professor is writing a learned book, and he found it necessary about a year ago to engage a secretary. The first two that he tried were not successes, but the third, Mr. Willoughby Smith, a very young man straight from the university, seems to have been just what his employer wanted. His work consisted in writing all the morning to the professor's dictation, and he usually spent the evening in hunting up references and passages which bore upon the next day's work. This Willoughby Smith has nothing against him, either as a boy at Uppingham or as a young man at Cambridge. I have seen his testi-

monials, and from the first he was a decent, quiet, hardworking fellow, with no weak spot in him at all. And yet this is the lad who has met his death this morning in the professor's study under circumstances which can point only to murder.

The wind howled and screamed at the windows. Holmes and I drew closer to the fire, while the young inspector slowly and point by point developed his singular narrative.

"If you were to search all England," said he, "I don't suppose you could find a household more self-contained or freer from outside influences. Whole weeks would pass and not one of them go past the garden gate. The professor was buried in his work and exalted far—nothing else. Young Smith knew nobody in the neighborhood and lived very much as his employer did. The two women had nothing to take them from the house. Mortimer, the gardener, who wheels the bath chair, is an army pensioner, an old Crimean man of excellent character. He does not live in the house, but in a three roomed cottage at the other end of the garden. Those are the only people that you would find within the grounds of Yoxley Old Place. At the same time the gate of the garden is a hundred yards from the main London to Chatham road. It opens with a latch, and there is nothing to prevent any one from walking in."

I can give it an unqualified recommendation." 25c, 50c \$1 at Alvey & List and G. C. C. Kolb's drug stores.

Got Damages From Father.
Dresden, Tenn., Aug. 17.—Fames Atkins, who last February was shot and seriously wounded by his father, Booker Atkins, was awarded \$1,500 damages in the circuit court here. Young Atkins has lost the use of one hand and now has a running sore in his hip several inches in diameter, the result of being shot, and will possibly never be an able-bodied man again. He brought suit against his father for damages in the sum of \$5,000, but was only awarded \$1,500, the jury being apprised of the fact that the latter amount was all that could possibly be made out of the old man's estate.

May Strike Over Eight Hour Day.
Toronto, Ont., Aug. 17.—President Ellis, of the United States Typographical union, to consider the eight hour day movement. Ellis said emphatically that the employers would not consent to an eight hour day. If there is to be a strike in January to carry that point, he said, let it come; the losses will be prepared for it. The committee will report on Thursday.

American is to Hang.
Ottawa, Ontario, Aug. 17.—Chas. King, an American, is to be hanged at Edmonton, August 31. King was convicted of murdering an English prospector named Hayward at Lesser Slave Lake, N. W. T., last fall. He was tried twice. The dominion government had the case under review and decided not to interfere. King came from one of the Dakotas.

Stop That Cough.
When a cough, a tickling or an irritation in the throat makes you feel uncomfortable take Ballard's Horehound Syrup. Don't wait until the disease has gone beyond control. Mr. and Mrs. J. A. Anderson, 354 West 5th St., Salt Lake City, Utah, write: "We think Ballard's Horehound Syrup the best medicine for coughs and colds. We have used it for several years; it always gives immediate relief, is very pleasant and gives perfect satisfaction." 25c, 50c and \$1 at Alvey & List, and G. C. C. Kolb's drug stores.

Bad at Shanghai.
Washington, Aug. 17.—Dispatches from China show Shanghai is the only place where the boycott against American goods has assumed anything like a serious aspect. At Canton the movement has made some headway, but at other points it has not been successful. This information was supplied in response to instructions sent some days ago to Minister Rockhill and consular officers in China to keep the state department advised as to the progress of the boycott. One dispatch on this subject received today was not made public at the state department but sent to the president at Oyster Bay.

RHEUMATISM
When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, Prop. Sullivan House, El Reno, O. T., writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c and \$1.00 at Alvey & List, and G. C. C. Kolb's drug stores.

PAINFUL HURTS
Result From Bricks Falling on Little Girl's Head.

Irene, the six-year-old daughter of Mr. A. W. Shepherd, the well known I. C. engineer, is suffering from severe injuries in the head, the result of an accident which happened at Mr. Shepherd's home yesterday.

The little girl and her four-year-old brother had erected a tent of bran sacks and had bricks on top to weight it down. They played under the tent for some time, and while romping about the bricks became dislodged and fell on the girl's head, inflicting two deep gashes.

A physician was called and dressed the wounds, which are painful but not serious.

COFFER DAMS

BEING TORN AWAY AT THE NEW I. C. BRIDGE.

Work of Tearing Down the Old Tennessee River Bridge Will Begin Soon.

Mr. W. C. Waggener, supervisor of bridges and buildings of the Louisville and Evansville divisions of the I. C. is at work this week tearing down the coffer dams at the new bridge over Tennessee river.

This is the last work to be done on the bridge. The coffer dams were used in building the piers and take up a great deal more room than the piers. Since the bridge is finished and the piers all dry and solid the dams are removed to better facilitate steamboating.

The work of tearing down the old bridge has not begun yet but will begin after the coffer dams are torn away from the new bridge piers. It is said that the division officials received instructions more than a month ago to tear down the old bridge as soon as possible.

HAPPY HOD CARRIERS

In Chicago—They Are Earning From \$35 to \$44 a Week.

Chicago, Ill., Aug. 17.—The hod carrier has at last come into his own. Drawing a weekly stipend of between \$35 and \$44, he can now afford to laugh at the clerks and salesmen who have regarded him as their inferior and look upon himself as the fit associate for trust magnates and bank presidents.

A building boom in Chicago has sent the wages of the hod carrier up the ladder which he has often climbed. For eight hours' work they receive 30 cents an hour. After that they get 45 cents an hour and on Sundays and Saturdays 60 cents an hour. Few of them are working less than 12 to 14 hours a day.

KITTY LEAGUE TURNS ITS TOES TO DAISIES

The End Comes Today---All Players Can be Reserved by the Clubs.

DISBANDED TOMORROW.

The Kitty league according to a statement made this afternoon by Mr. John W. Keiler, of the Paducah Baseball Association, disbanded tomorrow. Paducah will reserve all of her players, and the club may try independent ball for awhile. The future of the Kitty league may not be settled until next spring.

The end of the K. I. T. league season comes unexpectedly today. It was announced Sunday, after the meeting held at Cairo, that the clubs would play indefinitely, possibly until the end of the season.

The object in this seems to have been mere to postpone the end until the expected ruling from the national board was received regarding the holding of players. If the league had disbanded then, it would have left all the valuable players free. The league waited a few days, and the national board has now given the club franchise owners what they wanted.

The Princeton Democrat says: The question whether or not the season could be abbreviated and the players be legally reserved for next season was decided yesterday afternoon by the national board of arbitration of the baseball leagues of America, in session at Cincinnati.

H. A. Yeaeger, vice president of the Kitty league, received the follow-

ing telegram from M. J. Farnbaker, who is in Cincinnati attending the session of the board:

"The national board of arbitration rules that under the extraordinary conditions prevailing in the league it can close Thursday and reserve all players for next year."

The decision not only effects the Kitty league but the Southern, Cotton States and Texas leagues, which are effected by the prevalence of yellow fever in Louisiana and other parts of the south.

The various southern states and cities quarantining against the fever ruined baseball throughout that section and no more games could be played during the season.

As Cairo and Paducah are affected by these quarantines the attendance in both cities was materially affected and the national board was asked to come to the relief of the cities.

The effect of the ruling of the board makes the schedule up to tomorrow legal and says that all players now on the salary roles of the different clubs can be reserved for next year under the terms of the contract. All franchises owned by the cities will still hold good for next season.

This ruling gives club managers an opportunity to sell what players they care to.

The decision of the board was received with considerable pleasure by the local management as it leaves the club in good shape. All players will be paid in full and the association can be able to save considerable money.

provost martial to visit all saloons, and if any soldier became the least bit disorderly to arrest him and send him to the guard house even if force had to be employed.

Colonel McCormack has invented the "water cure" for drunkenness. It has been tested on two soldiers and proved so effective that both swore off drinking. First he injects abmorphine, followed by one or two glasses of hot water, which the patient drinks. The result is worse than sea sickness.

Colonel Phillip E. Mullin, of Governor Folk's Missouri staff, was in the city today as the guest of Adjutant General Percy Haly.

Prof. Moss, of the Manual Training school in Louisville, is clerk in the paymaster general's department.

The first dress parade of the First regiment takes place this afternoon at 5:30.

Colonel Hindman brought his fine automobile, which he will use during idle hours.

Cow Owners Will Not Be Prosecuted

Mr. John T. Donovan, general agent for the I. C., who has been troubled by many cows straying into his yard and who had two arrested two nights ago, has agreed not to prosecute if the cows are kept up hereafter. Mr. Donovan says that these two cows know how to get his gate open and have invaded his yard many times. He grew tired of it and had the bovines arrested. On promise that the cows would hereafter be kept up, he decided not to prosecute the owners.

County Court.

James Robert Bearfield, age 34, of the city, and Minnie Odell King, of Marshall county, age 24, were this morning licensed to wed. It will make the first marriage of both.

Joseph Klein was today appointed administrator of the estate of his late wife, Mrs. Julia Klein.

County Judge R. T. Lightfoot will tonight go to Creel Springs for his health. He has been ill for several weeks and is just recovering.

Will Look Through Safe.

This afternoon Mr. Felix Rudolph, administrator of the estate of the late H. A. Rose and his attorney, W. F. Eaton will take an inventory of the safe in the Kentucky Mill and Lumber company's office to ascertain if any policies belonging to the estate are contained in the safe. The examination will be made by agreement with the members of the company.

Attempt on Life of Empress of China. Frankfort, Aug. 17.—A Tien Tsin dispatch to the Frankfurter Zeitung says that an attempt was made on the life of the Empress of China yesterday as she was passing through the northwest gate of the city to her summer palace. Her assailant was dressed as a soldier and was bayoneted by her guards.

There may be a time for all things, but the wise man prefers to tackle one thing at a time.

STORY OF A BASEBALL.

This is the story of a baseball. It begins with a rubber core. Then it extends through hundreds of yards of yarn give the resiliency. Of More hundreds of yards of wool wool yarn give the resiliency, or "bounce." Then comes cement, and an outside cover within the prescribed weight and circumference laid down by the league magnates.

To every lover of the national game the following facts will be of interest:

Half a century ago the game of "rounders" gave a quick eye, a well-developed arm, a deep chest and a fleet foot to thousands of youngsters at "recess."

If some of the old "yarn balls" made by mothers and grandmothers had been preserved they would be priceless today as relics. Those balls were "swatted" out of shape in the twinkling of an eye.

Then a "kid" cover was sewed over the yarn ball. It was cut in eights of a circle just as an orange skin is divided. This was promptly knocked off in the second inning, but it gave a third inning for the yarn.

Harrison Harwood, of Natick, was a lover of the game. He had "swatted" yarn into comet-like streamers and had batted kid covers halfway across the "lot."

In 1855 he designed a two-piece cover. It was like what is now called a "toggle" joint. In other words, there were two hemispheres of leather, connected by a narrow isthmus, into which two other hemispheres fitted snugly. This was the first step. But the construction made it a "dead" ball. There was no "life" in it. Nevertheless, Mr. Harwood started a little factory in Natick in 1858. This was the first baseball factory in the United States.

The woman who had made baseballs for sons and grandsons were only too glad to earn "pin money" by sewing the covers on. Today there is hardly a family of half a century's standing in Natick whose progenitors were not interested in Mr. Harwood's venture.

And today there are over 100 families who learned the secret of sewing baseballs from parents and grandparents, earning much more than a living in homes that were paid for by baseballs.

Strenuous Life of "Marse Henry."

(From the New York World.)

"For myself, no mint julep is ever seen in my house. Ten years ago I bought a tract of arable land near Louisville and made my home there. The papers have been joking about my private mint beds ever since. As a matter of fact, if there is any mint on my farm I don't know it. Furthermore, I will venture to assert that in my home club, the Penderis, no one ever saw me take a drink. I haven't been to a horse race in twenty years. I don't even play cards, as I used to.

"But it is unfair, unjust, to stultify a man's best efforts. My only answer is in my work. At sixty-five I am in first-class trim, mentally and physically. That wouldn't be possible on a mint julep and roulette regimen. A writer who never knew me remarked lately: 'Watterson is not a genuine, creative journalist. He will occasionally, when he feels in the mood, dash off a brilliant editorial—and then, away to the club, and let the paper take care of itself. The foreman of the Courier-Journal composing room could tell another story. He could tell you that Editor Watterson has personally sent his paper to press at 2 and 3 in the morning regularly for the past thirty years.

We Are Willing.

Adj. Gen. Percy Haly is here from the encampment at Paducah. He is enthusiastic over the entertainment afforded by the citizens of the Purchase City. He goes to Louisville today to conduct the First Regiment to the encampment. The soldier boys who returned from the Paducah encampment yesterday morning report that they had "the time of their lives." They want Paducah made the permanent site of the state encampment.—Frankfort State Journal.

ENCAMPMENT NOTES.

An officer overheard several soldiers on a street car this morning, talking about "taking the town" tonight. Some of the men have an idea because they are from a larger city they can do as they please. As soon as the information reached General Haly he ordered a provost guard to the city to patrol the business districts and especially instructed the
